## 🏠 PROFILE

### MY PORTFOLIO WEB

Hi, I'm Dhruvesh Shyara, a UI/UX developer passionate about crafting intuitive and visually engaging experiences. Proficient in Figma, I have experience in wireframing, prototyping, and user-centered design. Currently pursuing B.tech in Computer Science, I aim to create impactful, user-friendly digital solutions.

🎓 Higher Secondary Certificate– **71%**

### Nutan vidhyapith,Mahuva

🎓 Secondary School Certificate– **96.08**  
PR

## 📁 PROJECTS

### ShyaraGold-figma

A luxury jewelry showcase website providing a seamless browsing experience

- **Elegant Design:** Premium aesthetics reflecting craftsmanship.
- **Intuitive Navigation:** Easy browsing with filters and categories.
- **Engaging Display:** High-quality images, zoom, and interactive carousels.
- **Seamless Flow:** Smooth product exploration and checkout.

### coding-gita figma

A design-centric project focused on creating modern, user-friendly web interfaces. It includes interactive prototypes, responsive UI, and seamless user experiences, translating Figma designs into clean, structured code.

- **Designed modern, user-friendly web interfaces with a focus on UX.**
- **Created interactive prototypes and responsive layouts using Figma.**
- **Prioritized usability, accessibility, and smooth user interactions.**

## 🧠 SKILLS

### Wireframing & Prototyping

- Crafting intuitive layouts and interactive prototypes using Figma

### User Research & Usability Testing:

- Analyzing user behavior to design experiences that truly resonate.

### Visual Design & Branding:

- Combining aesthetics and strategy to build cohesive, memorable designs.

### Design Systems & UI Components:

- Developing consistent, reusable elements for seamless user interactions.

## 🏆 LEADERSHIP

Led UI/UX design projects in Figma, ensuring user-centric, modern, and accessible designs.
